

Some Personal Reflections on Good Scientific Writing: Mistakes I (and some others) Have Made

or

The Good, the Bad, and the Ugly

AN INFORMAL SEMINAR

Thursday, 12 June 2014

10:00 AM - Noon

NEFSC Stephen H. Clark Conference Room

by

Fred Serchuk

Senior Science Advisor

Northeast Fisheries Science Center

Woods Hole, MA 02543

Good scientific writing is hard work. However, magical powers are not required to succeed. The ABCs (**a**ccuracy, **b**revity, and **c**larity) of writing well are easy to understand, and the skills for crafting a high quality paper can be learned. Based on his experiences, Fred Serchuk offers some simple tips and guidelines on how to become a better scientific writer.
